Character Puzzle

Activity sheet for peer teaching

Description of Activity:

Start the lesson by introducing Shakespeare, who he is and what he did, in simple terms. Then, split them into groups of five or six. They will play a pairs game. There are twelve plays and twelve characters. Each character comes from a play. Place the cards face down on the table. On their turn, each child chooses two cards. If they match (shown by the colours of the text), they get to pick again. If they do not match, they turn them back over and it is the next person's turn. Make sure that they read the cards and do not just look at the colours. When they have finished the pairs game, let them choose one of the two colouring sheets. While they are colouring, they should label the picture using the arrows that are already on the picture. Use the words from the word sheet, only one list per picture. The instructions are on the word sheet.

Key Questions:

- Knowing some subjects of Shakespeare's plays.
- Starting to learn about the basics of Shakespeare.

Aim: To get a better knowledge of Shakespeare

Age: 6-8
