Join the *CultureShake* multiplier event on 17 May 2019 for a special session of teacher training and some insights into a European project with partners from schools, universities and a charity trust.

In this multiplier event our findings, tools and teaching activities tested in the *CultureShake* project will be shared. *CultureShake* focuses on including multilingualism in the language learner classroom. We have been working with secondary school students from different language backgrounds throughout our project.
